PROFILE

Driven B.Tech Computer Science Engineering graduate with a passion for Cybersecurity and a solid foundation in Network Security, Ethical Hacking, Vulnerability Assessment, and Linux Administration. Skilled in analyzing security threats, identifying system vulnerabilities, and implementing security best practices through hands-on projects and practical labs. Quick learner with strong analytical and problem-solving skills, eager to contribute to security operations while advancing technical expertise in a dynamic cybersecurity environment.

EDUCATION

B.Tech. in Computer Science and Engineering 2022 – 2026
Government Engineering College Bharatpur (RTU,Kota) Bharatpur, Rajasthan
CGPA: 7.4

12th RBSE Board 2022
Vivekanand Sr. Sec. School Bharatpur, Rajasthan
Percentage: 81.2

PROFESSIONAL EXPERIENCE

Web Development Intern 05/2025 – 07/2025
IQUINCESOFT Mathura,UttarPradesh
•Built a responsive health-tech web interface for HBOT (Hyperbaric Oxygen Therapy) services.
•Developed interactive UI using HTML, CSS, JS with smooth navigation and mobile-friendly layout, and learned ReactJS, TailwindCSS, etc.
•Deployed the platform via GitHub Pages for client demos and portfolio showcases.

PROJECTS

Network Intrusion Detection System
Created a tool that:
- Captures network packets
- Detects suspicious traffic patterns
- Generates alerts

Tech: Python, Scapy, Wireshark

Ed-tech platform
A fully functional ed-tech web application that allows users to create, consume, and rate educational content. Tech Stack: ReactJS, NodeJS, ExpressJS, MongoDB, JWT, Cloudinary
Key Features:
- Developed a complete authentication system with login, signup, email OTP, and protected routes.
- Implemented course creation, purchase, lectures management, and video player using the MERN stack.
- Built a separate Instructor Dashboard for course creation, revenue tracking, and content management.
- Integrated Cloudinary for media uploads like course thumbnails and profile images.
- Designed a clean UI/UX, ensuring responsive layouts and a smooth user experience.
- Created a scalable backend with controllers, middleware,role-based access, and database models.

SKILLS & TOOLS

Languages: C++, JavaScript, Python
Technology: React, Redux Toolkit, Node.js, Express.js, MongoDB, REST APIs
Tools: Linux CLI tools, Wireshark**,** Burp Suite, Gobuster, Nmap, SQLmap, Hydra, Git, GitHub, VS Code, Postman, Chrome DevTools, Vercel
